

Anirudh Mahule

Frontend Engineer — React — Next.js — TypeScript

mahuleanirudh@gmail.com 8827048581 Pune, Maharashtra GitHub LinkedIn Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with 2 years of experience building scalable React.js applications at Accenture (Allianz Project). Skilled in reusable component architecture, custom hooks, REST API integration, protected routing and performance optimization using memoization, lazy loading and code splitting.

WORK EXPERIENCE

Software Engineer (Frontend - React) Feb 2026 – Present
Accenture (Allianz Project) Pune

Internal Title: Package App Development Analyst

- Designed reusable component architecture for pricing dashboards using React.js and Next.js.
- Reduced bundle size by 30% via route-based code splitting using React.lazy and Suspense.
- Improved rendering performance by 25% using memoization (useMemo / useCallback).
- Built custom hooks for API data fetching and business rule rendering.
- Integrated REST APIs using Axios and React Query.
- Implemented protected routes, pagination and debounced search.

Frontend Developer Apr 2024 – Feb 2026
Accenture (Allianz Project) Pune

Internal Title: Associate Software Developer

- Refactored legacy components into modular functional components using React Hooks.
- Resolved 50+ UI performance issues in production pricing workflows.
- Implemented error boundaries for resilient UI rendering.
- Optimized API usage through client-side caching.

PROJECTS

Shopy Admin Dashboard Live GitHub
React, Context API, Syncfusion, TailwindCSS

- Built an interactive admin dashboard with dynamic charts and Kanban board.
- Implemented reusable layout components and theme customization.
- Centralized dashboard state using Context API to reduce prop drilling.

The Wild Oasis – Hotel Booking Platform Live GitHub
React, React Query, Supabase

- Implemented authentication flow with protected routes.
- Developed CRUD workflows with role-based access.
- Built paginated booking tables for optimized rendering.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS

State Management: Redux Toolkit, Context API

Performance: Memoization, Lazy Loading, Code Splitting, Debouncing, Pagination

API Integration: REST API, Axios, React Query

Architecture: Custom Hooks, Reusable Component Design, Protected Routes

Tools: Git, Vite, Webpack, ESLint, Prettier

EDUCATION

Bachelor of Technology in Mechanical Engineering 2019 – 2023
Oriental Institute of Science and Technology Bhopal
